

## (C14) Tetradecanoyl-L-carnitine-d3

<http://www.lumiprobe.com/p/tetradecanoyl-l-carnitine-d3>

(C14) Tetradecanoyl-L-carnitine-d3 is deuterium labeled myristoyl-L-carnitine and intended for use as an internal standard for the quantification of myristoyl-L-carnitine tetradecenoyl-L-carnitine (C14:1), 3-hydroxytetradecanoylcarnitine (C14ON) by GC- or LC-MS.

In studies of fatty acid oxidation, Myristoyl-L-carnitine-d3 Hydrochloride helps elucidate the role of L-carnitine in the transport of fatty acids into mitochondria, which is critical for understanding energy production in cells.

### Structure of (C14) Tetradecanoyl-L-carnitine-d3

#### General properties

Appearance: white solid

Molecular weight: 411.03

Molecular formula: C<sub>21</sub>H<sub>39</sub>D<sub>3</sub>ClNO

Quality control: NMR <sup>1</sup>H and HPLC-MS (95+ %, D: 98+ %)

Storage conditions: 24 months after receipt at -20°C in the dark. Transportation: at room temperature for up to 3 weeks. Desiccate.

Legal statement: This Product is offered and sold for research purposes only. It has not been tested for safety and efficacy in food, drug, medical device, cosmetic, commercial or any other use. Supply does not express or imply authorization to use for any other purpose, including, without limitation, in vitro diagnostic purposes, in the manufacture of food or pharmaceutical products, in medical devices or in cosmetic products.
